

### 3. Create a scatter plot to show the relationship between two variables.

- **Definition:** Scatter plots are the graphs that present the relationship between two variables in a data-set.
- **Application:** Scatter plots are used to show relationship analysis, shows how two variables relate to each other, helps identify if there's positive, negative, or no correlation.
- **Dataset / Data source: IPL Season (2008-2022)**

Same dataset is used as Practical 1 (IPL Season (2008-2022))

- Drag Runs off Bat in column and Ball in rows

- Scatter chart of Runs scored V/S Ball Faced
