EXERCISE

"begin with the end in mind"
is to begin today with the
image, picture of the end of
your life"

Marwadi
University

Now think deeply. What would you like each of these speakers to say about you and your life? What kind of husband, wife, father, or mother would you like their words to reflect? What kind of son or daughter or cousin? What kind of friend? What kind of working associate? What character would you like them to have seen in you? What contributions, what achievements would you want them to remember? Look carefully at the people around you. What difference would you like to have made in their lives? Before you read further, take a few minutes to jot down your impressions. It will greatly increase your personal understanding of begin with the end in mind

If you participated seriously in this visualization experience, you touched for a moment some of your deep, fundamental values. You established brief contact with that inner guidance system at the heart of your Circle of Influence.

**What lies behind us and what
lies before us are tiny matters
compared to what lies within
us.**

“Begin with the end in mind” is based on the principle that all things are created twice. There’s a mental or first creation, and a physical or second creation, to all things.

of your own destiny**

+ MOST EFFECTIVE WAY TO USE THIS TOPIC

For example Take the construction of a home, You create it in every detail before you ever hammer the first nail into place. You try to get a very clear sense of what kind of house you want. If you want a family-centered home, you plan to put a family room where it would be a natural gathering place. You work with ideas. You work with your mind until you get a clear image of what you want to build. Then you reduce it to blueprint and develop construction plans. All of this is done before the earth is touched. If not, then in the second creation, the physical creation, you will have to make expensive changes that may double the cost of your home. anything you want to do first make a plan and make it clear in mind.

+ MOST EFFECTIVE WAY TO USE THIS TOPIC

The most effective way I know to begin with the end in mind is to develop a personal mission statement or philosophy or creed. It focuses on what you want to be (character) and to do (contributions and achievements) and on the values or principles upon which being and doing are based. Because each individual is unique, a personal mission statement will reflect that uniqueness, both in content and form.
